- **Patient coordination and case acceptance**
Treatment-plan explanation, procedure education, financial-option discussions, scheduling, follow-up, bilingual communication, and support for nervous or hesitant patients.
- **Leadership and operations**
Training and supervising dental assistants, managing sterilization, maintaining inventory, ordering supplies, creating clinical procedures, and improving office workflow.

CAREER VALUE

- More than 15 years of experience across general dentistry and a wide range of specialty and surgical procedures.
- Experienced trainer and workflow leader who can orient new assistants, manage clinical systems, and support efficient day-to-day operations.
- Strong patient rapport and bedside manner, especially with anxious patients and Spanish-speaking families who need clear, compassionate communication.
- Comfortable entering unfamiliar practices, learning provider preferences quickly, and contributing without extensive hand-holding.
- Willing to complete employer-required courses, certifications, and continuing education.

TECHNOLOGY AND LANGUAGES

- **Practice Systems** Dentrix and Open Dental
- **Clinical Technology** Digital radiography, CBCT, Panorex, intraoral cameras, intraoral scanners, and digital impression systems
- **Languages** Fluent English and Spanish

PROFESSIONAL PROFILE

Senior Dental Assistant with more than 15 years of experience supporting general, specialty, surgical, and restorative dentistry. Brings advanced chairside capability across implants, oral surgery, endodontics, periodontics, orthodontics, prosthodontics, cosmetic procedures, TMJ and airway care, and emergency clinical dentistry. Recognized for anticipating provider needs, maintaining efficient clinical flow, training team members, and helping anxious patients feel informed and comfortable. Fluent in English and Spanish, including real-time explanation and translation of procedures, treatment plans, and follow-up instructions.

PROFESSIONAL EXPERIENCE

Jade Dental Professionals | Colorado Springs, CO Dental Assistant | November 2023 - Present

- Deliver comprehensive chairside support in a fast-paced practice, anticipating provider needs and helping maintain consistent clinical flow across a demanding schedule.
- Prepare patients, operatories, instruments, and materials; perform digital imaging and intraoral photography; and maintain sterilization and infection-control standards.
- Explain procedures and follow-up instructions in English and Spanish, using a calm bedside manner to help anxious patients remain comfortable and engaged in treatment.
- Support patient coordination from intake through treatment completion, including scheduling, follow-up communication, and treatment-plan reinforcement.

Prime Care Dental | Las Vegas, NV Dental Assistant | January 2023 - May 2023

- Supported multiple providers in a high-volume environment that required speed, accuracy, organization, and rapid adaptation to established systems.
- Assisted with general and restorative procedures, prepared treatment rooms, supported patient education, and maintained dependable turnover between appointments.
- Integrated quickly into the clinical team and used broad prior experience to contribute with minimal onboarding.

Pineland Dental | Larkspur, CO Dental Assistant | July 2010 - March 2012

- Provided four-handed chairside assistance across general dentistry while supporting imaging, patient preparation, sterilization, post-treatment care, organized operatories, and dependable communication among providers, patients, and front-office staff.

Meadows Dental Group - General Dentistry | Lone Tree, CO Dental Assistant | April 2008 - May 2010

- Delivered chairside support for general, restorative, and cosmetic dentistry, including crown and bridge procedures, impressions, temporaries, and treatment preparation.
- Supported treatment-plan education, scheduling, patient follow-up, and ongoing communication to help patients understand and proceed with recommended care.

Meadows Dental Group - Endodontics | Lone Tree, CO Dental Assistant | October 2006 - April 2010

- Provided specialized support for root canals, endodontic surgery, emergency treatment, and complex cases requiring precision and close coordination with the provider.
- Prepared surgical materials and imaging, monitored patient comfort, and guided patients through specialty treatment with clear explanations and reassurance.
